

RESPONDING TO A POSITIVE COVID-19 CASE WITHIN YOUR CLUB

As we move through the HKRU Return to Rugby phases the risk of a positive COVID-19 case within a rugby environment increases.

This document aims to set out some simple guidance for clubs on how to respond to a confirmed or probable COVID-19 case. As with all Return to Rugby information, this guidance is in line with public health guidance, and is subject to change at any time in line with HKSAR Government guidelines.

STEP 1

Club Team Manager/ Club Rep of the COVID-19 confirmed or probable player to notify nominated Club COVID Manager. Club Team Manager to notify all team members.

Club COVID Manager to notify HKRU immediately at lucy.clarke@hkrugby.com or Tel +852 9137 7410.

Club COVID Manager to postpone ALL club rugby activities until a full risk assessment has been undertaken and appropriate action taken in line with local public health guidance.

STEP 2

HKRU staff member (Lucy Clarke) will support the club through the process.

HKRU to offer media and medical support if required.

Club to follow government guidance for testing procedures.

STEP 3

Club COVID Manager to convene an emergency medical meeting with relevant HKRU staff members to deal with and track the situation.

Club COVID Manager to undertake a review of all risk assessments and take appropriate action before resuming any club activity (inline with local public health guidance and the Club Planning & Checklist document).
